## Skills

- Adaptability
- Critical thinking
- Organized
- Time Management
- Communication skills

## Languages

- English      Fluent
- Kiswahili      Native speaker

## Certifications

- Applied Data Science - WorldQuant University
- Machine Learning Fundamentals - Alteryx
- Introduction to Data and Data Science - 365 Data Science
- Introduction to Data Science - Cisco
- Data Fundamentals - IBM
- IBM zXplore - IBM
- Java Intermediate - Sololearn
- SQL - Sololearn

## Profile

As a data scientist, I am driven by a passion for uncovering insights that can transform data into meaningful solutions. With a solid foundation in programming—especially Python—and expertise in SQL, MySQL, and PostgreSQL, I am equipped to tackle complex challenges in data analysis and machine learning.

I thrive on leveraging data structures and algorithms to build robust, scalable applications. My analytical mindset fuels my commitment to continuous learning, and I am excited about the potential of data science to revolutionize industries. I look forward to contributing to impactful projects that harness the power of data to create positive change.

## Employment History

-  **ICT Intern** May 2024- Aug 2024  
Warehouse Receipt System Council

Demonstrated technical skills and administrative abilities. I developed procurement guidelines, conducted maintenance research, and prepared reports. I provided timely technical support, resolved queries, and actively participated in project development.

-  **Loan Officer** Nov 2022 - Mar 2023  
Mboleko Limited

As a Loan officer in a Micro-finance Institution, I managed data using skills in analytics, SQL, Excel, and database management. Contributed to the team's recovery of over 2 million in defaulted loans and played a key role in achieving a 10% annual profit turnover in 2022. Additionally, implemented strategies enhancing financial outcomes for company growth and profitability

## Volunteer Experience

-  **Fintech Frontiers**  
Collected data and participated in its analysis in support of Fintech Frontiers' initiatives, crafting impactful PowerPoint presentations to convey findings. Dedication to volunteer work significantly contributed to the success of various Fintech Frontiers' projects.

## Education

-  **BSc Computer Technology** 2021-2025  
Jomo Kenyatta University of Agriculture and Technology      Juja, Kiambu
